By clicking on browse, you will have to go and find the file "megadebrid.host" and then click on the "Add" button :

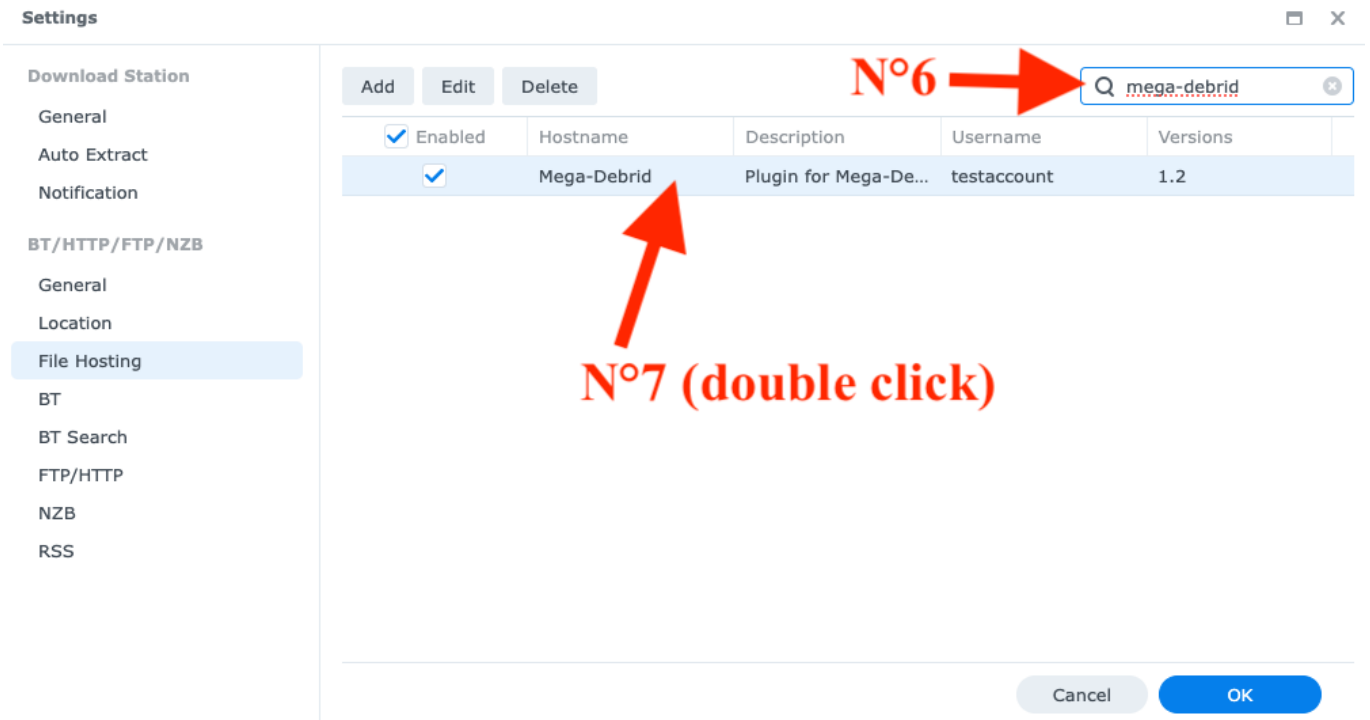

Mega-Debrid tools

The screenshot shows the 'Settings' window for Mega-Debrid. The left sidebar has 'File Hosting' selected under the 'BT/HTTP/FTP/NZB' section. The main area displays a table of file hosting sites. A modal dialog titled 'Add File Hosting Site' is open, showing the input field 'megadebrid_v1.2.host' and the 'Add' button. Red arrows and numbers N°2, N°3, N°4, and N°5 highlight these elements.

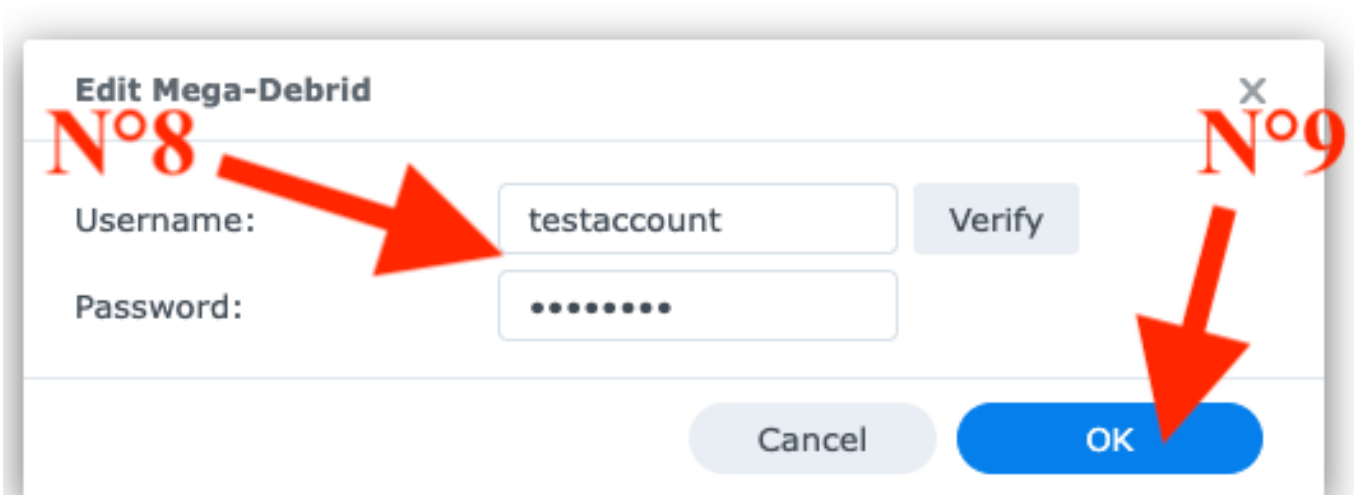

| Enabled | Hostname | Description | Username | Versions |
|-------------------------------------|--------------|-----------------------|----------|----------|
| <input type="checkbox"/> | DatoidCz | pyLoad Plugin (Bet... | | 0.24 |
| <input type="checkbox"/> | DdlTo | pyLoad Plugin (Bet... | | 0.03 |
| <input type="checkbox"/> | ExtmatrixCom | pyLoad Plugin (Bet... | | 0.01 |
| <input type="checkbox"/> | FastixRu | pyLoad Plugin (Bet... | | 0.13 |
| <input type="checkbox"/> | FastshareCz | pyLoad Plugin (Bet... | | 0.17 |
| <input checked="" type="checkbox"/> | File4SafeCom | pyLoad Plugin (Bet... | | 0.11 |

Make sure that the MegaDebrid plugin is activated and that only the official version is activated.

Mega-Debrid tools

Log in with your site credentials and confirm by clicking on the "Ok" button.

Once the connection is complete, all links from supported hosting providers added to Download Station will be automatically unlocked and downloaded.

You can enhance your Download Station experience by combining it with browser plugins that allow you to launch the download in Download Station directly from your browser.

Mega-Debrid tools

They are available for Google Chrome, Opera, and Firefox at this address:
