RapidGator - why are some downloads refused?

RapidGator - why are some downloads refused?

RapidGator has added a feature that allows people making files available to charge an additional premium subscription fee to access the files.

This subscription being unique to each person, it is not possible to support this type of link and consequently, the download is refused.

How to recognize a link subject to a subscription?

They have a frame below the file information which clearly explains that you need to subscribe to specific access to retrieve the file (see screenshot below).

The screenshot shows the RapidGator interface. At the top, there's a navigation bar with 'RapidGator: Fast, safe and secure file hosting', 'Login', 'Registration', and a language dropdown set to 'English'. Below this is an orange header with the 'RAPID GATOR' logo and navigation links: 'News', 'Upload file', 'Buy Premium', 'Add funds', 'Earn', and 'Support'. The main content area shows a download progress indicator for a file named 'filename' (1 GB size). A red arrow points to a yellow warning box that reads: 'The files of this publisher "Uploader name" can be downloaded only by subscribers. Please subscribe.' Below this is a table comparing 'SLOW SPEED DOWNLOAD' (Free) and 'HIGH SPEED DOWNLOAD' (Premium).
